DURHAM BRIDGE REPAIRS TO BEGIN ON US ROUTE 4
WORK WILL REQUIRE DAILY SINGLE LANE TRAFFIC FOR FOUR WEEKS

The New Hampshire Department of Transportation announces bridge repairs are scheduled to begin Monday, September 29, 2003 on the US Route 4 bridge over Bunker Creek in Durham.

This bridge work will require single lane (14 feet wide) traffic daily from 8:30 am to 3:00 pm for four weeks. Warning signs, cones and flaggers will be used to guide alternating traffic through the work zone. Minor delays can be expected.

This work on the bridge abutments has to be performed during low tide so the work will be sporadic according to the tides.
